# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

#### **Paul's Slide, State Route 1, Monterey County**

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

#### **Mud Creek Slide, State Route 1, Monterey County**

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from CalTrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

# WEATHER OF CONCERN

## Weather of Concern

- Warm conditions are in store across Northern California today, with temperatures expected to be warmer than normal across the interior.
- An upper level high pressure system building over the desert southwest will bring seasonal warm temperatures to inland areas of Southwest California for this 4th of July, with highs well into the 80s and 90s across most inland areas, except over 100 degrees in the Antelope Valley. A continued onshore flow and marine layer influence will keep much milder temperatures near the coast, with highs mostly in the 70s. Some mid level monsoon moisture is expected to bring some clouds and a slight chance of afternoon thunderstorms across the mountains and Antelope Valley.

## **Active Weather Warnings, Watches and Advisories by County:**

- [http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php) - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

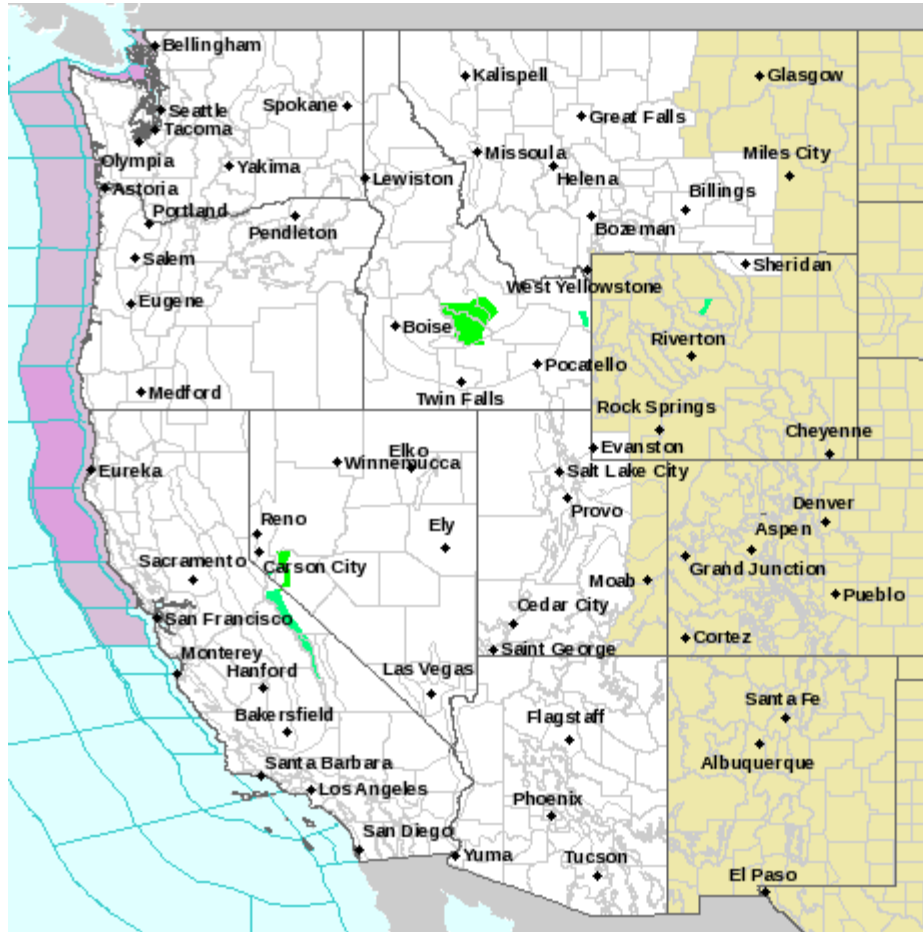

High pressure will be over the Northern California today and Monday. Inland areas will see afternoon temperatures 5-8 degrees above normal and humidity drop to 12-25%. Afternoon SW-NW winds will gust to 20-25 mph along the coast, through the delta, and east of the Cascade-Sierra crest. Other than a few afternoon cumulus over the higher peaks and low stratus and fog in coastal areas skies will be clear. On Tuesday a S-SW flow pattern will set up and continue into next weekend as high pressure strengthens over the 4-Corners area and a Pacific low pressure trough sits offshore. Gusty afternoon SW-NW winds will continue in coastal areas and through the delta, and afternoon SW winds east of the crest will gust to 25-35 mph. Temperatures will be 3-5 degrees above normal through Thursday then increase a bit into the weekend. Afternoon cumulus buildups can be expected over the peaks each day, and there is a slight chance of afternoon and evening mountain showers and thunderstorms Wednesday and Thursday.

## **SOUTHERN CALIFORNIA**

Isolated to scattered afternoon thunderstorms Wednesday through next weekend. Strong high pressure currently over Northern Mexico will shift northward to the Four Corners Area by Tuesday and then it will expand westward into California by the end of this week bringing a slow warming trend to the area. Maximum temperatures will remain in the upper 70s and 80s across the mountains and upper 80s and 90s in the inland valleys today. The warmest day will be Friday when most valley locations will be well over 100 degrees. Minimum humidity will remain mainly between 15% and 30% above and inland from the marine layer today, except there will continue to be widespread single digit humidity across the deserts. The marine layer remains around 2,000 feet deep this morning but will shrink as the ridge approaches the area. Minimum humidity will drop into the single digits and teens away from the coastal areas Monday and Tuesday and then there will be a gradual increase in humidity Wednesday through the end of this week as monsoonal moisture starts to come out of the southeast and south. This monsoonal moisture will bring isolated afternoon showers and thunderstorms to the Sierra as well as the mountains and deserts of Southern California east of the I-5 corridor Wednesday through Friday. The high pressure will move off to the northeast causing shower and thunderstorm activity to increase in both number and areal coverage next weekend. Temperatures will cool and humidity will be fairly high next weekend. South to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will continue to surface across the wind prone mountain and desert areas through Tuesday.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2017-LAW-36880 7/1/17, 2036 hrs.,** The El Dorado County Sheriff's Office (EDSO) is requesting SAR resources to assist in the search for a 6 yr old male juvenile who has been missing since 1730 hrs. on Saturday, 7/1/17. The missing juvenile was riding quad's with another juvenile in the Pollock Pines area and didn't return at the expected time. The families searched and found one boy but the other is still missing. EDSO has sufficient ground teams for tonight but needs a hoist capable helicopter w/FLIR for an immediate response. CHP Air Op's had been assisting but cannot fly overnight. CNG unable to launch tonight. AFRCC secured an HH-65 out of Sector SF, which launched at 0009 hrs. 7/2. **Update: 7/1/17, 2120 hrs.,** EDSO requesting additional resources beginning Sunday morning (7/2), as follows: 50 Type I/II ground searchers, 20 Quads: OHV/UTV's with spotters, 20 Mounted Units, and a dedicated helo for searching/possible insertion of ground teams. All ground teams will be briefed at the CP at 0700 hrs. Sunday. Helicopter requested by 0800-0900 hrs. A later request from EDSO included T-Comm assistance with satellite phone and internet connectivity and for a mobile kitchen thru Salvation Army. With the assistance of A/C Broughton, we secured the following resources:  
**Helicopter:** CNG committing a UH-60 with Hoist to be on scene by 0730 hrs. Sunday for a multi-day deployment if needed. They will also bring a cache of Friendly Force Trackers and 2 support personnel.  
**Type I/II Ground Searchers-** Marin (10-12, including 2 overhead), Alameda (6), Solano (1), Amador (3), Nevada (9), San Mateo (5), BAMRU (3 + possibly 2 more), Placer (9, includes 2 MRT members), Stanislaus (7-10), Santa Clara (4). TOTAL - 57-64  
**Quads: OHV/UTV's with spotters (no motorcycles) -** Yolo - 4 ATV's, Nevada - 4 OHV's, Alameda - 1 UTV, Solano - 3 ATV's, Contra Costa - 1 UTV, Placer - 3 UTV's. All will come with spotters and/or operators. TOTAL - 16 ATVs (combination of OHV/UTV's)  
**T-Comm:** TDO Ben Green working on either a Transportable (i.e. Flyaway Kit) or MIGU 4. Due to lateness of request (0030 hrs), ETA will be approx. 1200 hrs. Sunday  
**Mobile Kitchen/Latrine Services:** A/C Broughton worked with the IDO Lindsay Stanley to coordinate this request with the Salvation Army.  
**Update: 7/2/17, 0731 hrs.,** EDSO advised the missing juvenile was located alive and well. His quad was located earlier this morning and they tracked him to a location where he had established overnight shelter. All mutual aid resources, which were in the process of being briefed, were advised and released. A/C Broughton assisted in notifying all SAR coordinators, including the AFRCC, CNG, T-Comm and the Inland Duty Officer. **MISSION CLOSED.**

# **Cal OES RECOVERY**

## **2017 Statewide Winter Storms**

### **Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA**

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

### **EMAC and Public Assistance - 2017 Winter Storms**

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- **2017-SOC-36293:** Three Public Assistance Coordinators from the state of Colorado have been assigned to California through the EMAC system.
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

# *Cal* OES

GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
